

# JEDI Legal Regulation: Canada

## **Legislation or Policy**

#### **Canada Business Corporations Act (CBCA)**

Companies now need to disclose information to their shareholders on the diversity of their boards of directors and senior management teams.

#### **Employment Equity Act**

The act strives for diversity in the workplace and defines diverse groups as women, Indigenous peoples (i.e., First Nations, Inuit and Métis), persons with disabilities and members of visible minorities.

### **Investor Implications**

 This disclosure requirement means that public corporations need to publicly outline and disclose diversity targets, with a "comply or explain why" framing in place.
